

*Retournac, April 2<sup>nd</sup>, 2010*

*Dear Customer,*

*All our suppliers have been asked to confirm their position concerning the new candidate list published by REACH in January 13, 2010 : 14 new substances have been included.*

*We do not control the eventual presence of VHCS in our films. On the basis of the "Material Safety Data Sheets" and on the basis of the answers provided by our suppliers, we can confirm that raw materials used in the formulation of our films :*

***LMG C – LMG W12 – LME C – LME W – SPC SC C – SPC SC W***

*do not contain "Very High Concerned Substances" according to REACH's limits (official list available on <http://echa.europa.eu>).*

*As our suppliers are europeans, they have to inform us when they use more of 0.1% of VHCS in their product if such is the case*

*Staying at your disposal for further information,*

*Yours faithfully,*

*Georges LAURENT*  
*QC/R&D Manager*
